

**SEED (Stewards in Engineering Education) Program Application Form**

**Program Information:**

The School of Engineering at UBC’s Okanagan campus conducts a Stewards in Engineering Education (SEED) Program to promote engineering research interest and involvement among high school students. Through the SEED Program, high-school students have the opportunity to participate in cutting-edge research projects with world-class researchers and graduate students in state-of-the-art laboratory facilities.

High school students going into grades 10, 11, or 12 can apply for the SEED Program by completing this SEED Program application form and submitting it via the instructions below. Application forms will then be reviewed, and successful applicants will be selected to participate in engineering research projects at UBC's Okanagan campus for a one-week period (July 24-28, 2017).

Participants will be asked to share their research experiences with their peers the following school year. The hope is that the shared research experiences will plant seeds for future interest and involvement in engineering.

**Application Directions:**

1. Complete form and submit by email to [engineering.okanagan@ubc.ca](mailto:engineering.okanagan@ubc.ca).
2. Application Deadline is Monday, May 15<sup>th</sup>, 2017.
3. Once participants are chosen, they will be contacted via email with further information.

**Applicant Information (required):**

First Name:	Last Name:
Email Address:	Phone Number:
Going into grade:	School:

Efforts will be made to have SEED Program participants carry out research that suits their interests. To enable this, please rank your interest in the following three engineering fields (1-3, with 1 being the greatest interest).

Rank	Field
	Civil Engineering
	Electrical Engineering
	Mechanical Engineering

**Provide a brief description of your career interests. Use only the space provided below.**

**Provide a brief description of how you would go about sharing your research experience with peers in the following school year. Use only the space provided below.**
